

Yorkon Design Guide Workshops

13th May 2008

Venue: Edgbaston Cricket Ground, Birmingham B5 7QU

An opportunity for architects and designers to experience at first hand a unique design tool - The Yorkon Design Guide

Two workshops will be held on Tuesday 13th May, one at 11.00am and another at 13:15pm.

The workshops are designed to give architects and designers a clear insight into how to begin designing a building with off-site construction in mind - using steel frame modules from a range of sizes and shapes.

Each free workshop will last approximately 90 minutes and includes:

- An introduction to the design guide.
- A demonstration of the guide using CAD.
- Question and answers.

The workshops will be run by Yorkon with assistance from P&HS Architects.

As well as the computer demonstrations hard copy of design examples will be used for discussion throughout. Light refreshments and coffee/tea will be served.

A workshop pack will be available to take away.

We hope you or one of your colleagues will be able to attend one of the sessions.

For further information call David Coward on 01904 681707 or:

To book your place please [click here](#) and fill in the registration form indicating which session you would like to attend.
